More Canal Money

WASHINGTON, D. C., Dec. 18.—Secretary of War Wright has requested that an urgent deficiency bill be passed appropriating \$585,800, to carry on the Panama Canal work to the end of the present fiscal year.

INVESTIGATING SOLDIERS' DEATH

MANILA, P. I., Dec. 18.—An investigation is being made into the poisoning of a number of the soldiers of the Eighteenth Infantry, supposed to have been the result of drinking poisonous spirits. Eighteen of the ones affected by the poison have died and thirteen others are seriously ill.

TONS OF TEA FOR FLEET

COLOMBO, Ceylon, Dec. 18.—The Tea Planters' Association of Ceylon has presented the officers and men of the American Atlantic Fleet with fifteen thousand pounds of tea.

NOT DECLARING WAR

THE HAGUE, Dec. 18.—It is believed here that the Venezuelan proclamation, that their country is in a state of defense against the Dutch blockade of their ports, is not intended to be a declaration of war.

NEW FLYING RECORD

LE MANS, France, Dec. 18.—Wilbur Wright today established a new world's aeroplane record, remaining in the air in flight for one hour fifty-three minutes and fifty-nine seconds.

WATER SUPPLY

(Continued from Page 1)
delay in shipments on the part of the authorities there.

Pending the completion of the permanent buildings at the post, the Fifth Cavalry will live under canvas at Lihalehua. Conical wall tents will be provided for the enlisted men, while the officers will occupy hospital tents. The tents are all on hand. One hundred and twenty of the conical tents will be required and sixty hospital tents.

The floors for the tents are now being laid and they will be in readiness for the troops when they arrive on January 12. It is yet a little early to say how many of the stables and corrals will be completed by the time set.

There is a large force of men at work at Lihalehua, and nothing other than the non-arrival of the necessary materials will be allowed to delay the construction.

Call at the Bulletin office and get a free list of the new fire alarm numbers and all the changes. After January 1st the Honolulu Undertaking Co. will be known as the M. K. Silva Undertaking Co.

MESSAGE RECEIVED FROM SANTA CLAUS

Santa Claus will come ashore here Tuesday morning early. His location, at 8 o'clock last night, was about 900 miles west of here and he was headed this way just as fast as a powerful triple expansion marine engine could bring him. Castle & Cooke, agents for the Matson Navigation Company, last night received the following wireless message from him:

"On board the Hilonian 890 miles from Honolulu, 8 p. m. Friday. We have twenty passengers, two hundred and fifty-three bags of mail, three thousand tons of general merchandise. FIVE HUNDRED TONS OF CHRISTMAS GOODS INCLUDING TREES AND CANDY, eight mules for the Kahuku plantation, seven automobiles consigned to E. O. Hall & Son and the Schuman Carriage Company. Will arrive in Honolulu Monday evening at 8 p. m. All well. Weather fine and still in communication with San Francisco."

IN FOREIGN PORTS

Saturday, December 19.
GAYOTTA—Sailed Dec. 17.
Sp. Falls of Clyde, for Honolulu.

IF YOU WAIT for the serious trouble with your eyes, you will take the serious consequences.

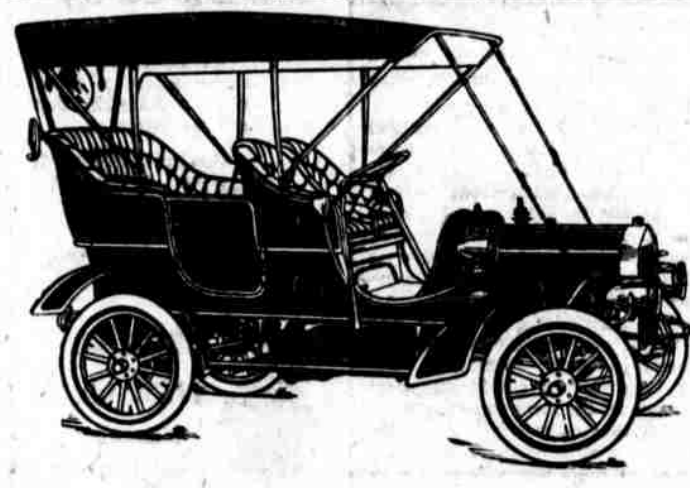

Come to us with the first symptom.

Sea Wrens, \$100

18-foot Motor Launch with 4-Cycle Motor, \$175. Complete.
THE CHARLES D. WALKERS, BOAT AND MACHINE WORKS
King St. opposite South St.

The Buick Model F

\$1350.—DELIVERED IN HONOLULU, COMPLETE WITH TOP, GAS LAMPS, GENERATOR, ETC.

THE OLD RELIABLE MODEL F

This two-cylinder touring car has had five years of unparalleled success, and its unsurpassed ability for doing all-around work cannot be questioned. Strong statements, but any Buick owner will confirm them.

BRAKES
The service brake consists of external contracting bands on the differential drums and is operated by a foot lever. Internal expanding hub brakes acting on 14-inch wheel drums and operated by a side lever make an unusually strong set of emergency brakes.

MOTOR
The horizontal, two-cylinder opposed motor under the body is very accessible. The Buick valve in the head construction is used, the valve and cage being easily removed as a unit.

LUBRICATING SYSTEM
A mechanical force feed gear driven oiler is used. After the adjustments on the oiler have once been correctly made, no further attention need be paid to the lubricating system except to fill the oiler.

Model F Specifications

BODY—Side entrance tonneau.
SEATS—Five persons.
WHEEL BASE—92 inches.
GAUGE—56 inches.
TIRES—30 x 4 inch Michelin.
STEERING—Tilting column, pinion and sector.
BRAKES—External contracting on differential, and internal expanding hub.
SPRINGS—Three-fourths elliptic in front, full elliptic in rear.
FRAME—Angle iron.
MOTOR—Double opposed. 22 H. P.
CYLINDERS—4 1/2 x 5 inches.
VALVE ARRANGEMENT—In head of cylinder; cage and valve removable.
COOLING—Water. Gear pump.
IGNITION—Jump spark.

THE OLD RELIABLE MODEL F

ENGINE BEARINGS

The engine bearings are large and it is not necessary to re-adjust them every few weeks.

CLUTCH

The clutch is self-adjusting and is another mechanical appliance to which no attention need be paid excepting that it should occasionally be cleaned with gasoline and should be dressed with a few drops of castor oil to soften the leather.

CHANGE GEAR

The change gear is of the planetary type and is built remarkably strong. Proper lubrication is the only demand which this mechanism makes.

SPRINGS

Three-quarter elliptic springs in the front and full elliptic springs in the rear make the car "ride like a cradle."

IGNITION

A storage battery supplies the current. A reserve set of dry cells is a part of the equipment.

A CARLOAD OF THESE WELL-KNOWN AUTOS IS DUE IN THE "HILONIAN" TUESDAY.

The von Hamm-Young Co., Ltd., Agents
